In as little as 5minutes you can be on your way out the door with up to 300.00 in cash for a first time loan and as long as you return within the 2 weeks required your first loan is interest free!

PayDay loans are a very short-term loan designed to cover emergency expenses. They are designed so you can get quick cash and pay it back out of your next paycheck. In Kansas You will have to pay \$15.00 for every \$100.00 that you borrow and that is a lot less money than writing a bad check that the bank will charge you around an NSF fee. The national average NSF fee is \$53.00. You also should consider the merchant that received the bad check will be charging you a returned check fee that is generally around \$30.00. This means that the combined fees for a \$100.00 bad check could easily be or exceed \$83.00 and that is 5.5 times what you would pay for a \$100.00 advance loan.

Do you wish to borrow from the pawn shop which requires you to leave an item worth many times more than the amount you are borrowing or do you wish to borrow from a no hassle payday loan store?

Not only does PayDay Advance offer you a first loan interest free but also if you refer a friend you get \$10.00 off your next loan and so does the friend.
